

King Richard Wants You!!!

Calling all Enduro Clubs and Promoters!!

Dick Burleson wants you to join the NEPG in the continued growth of the National Enduro Series. As you all have heard and seen, the AMA/Rekluse National Enduro Series presented by Moose Racing has made a huge come back over the past two years. We are seeing rider participation that rival the Enduro hay days when bikes were air cooled and Dick Burleson ruled the Enduro Kingdom. With the restart format and Electronic Scoring being handled by the NEPG, the National Enduro Series has evolved, just like the bikes that we all ride today. Dick and the NEPG are asking for clubs and promoters that are interested in hosting a national enduro in 2010, to submit an application to the AMA by August 1st. Back in the 70s there were 100's of clubs putting on Enduros, but with land closures and regulations dealing with street legal bikes, many of these clubs had to stop holding Enduros. With the new format things have changed. So if your club would like to learn more about the "New" National Enduro Series, please contact the NEPG at info@nationalenduro.com
